

## ENGLISH SCORE GUIDE

1. Download the app “English Score” from British council and install it on your cell phone. It’s available in Mexico both for Android and iOS. Open the app and tap “Get started”.

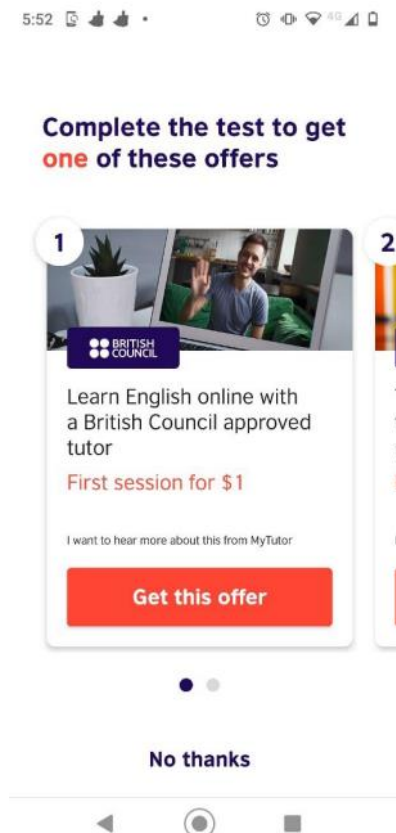

2. Select “Continue with email” and register with your corporate email address. If it is not possible, please use a personal one.

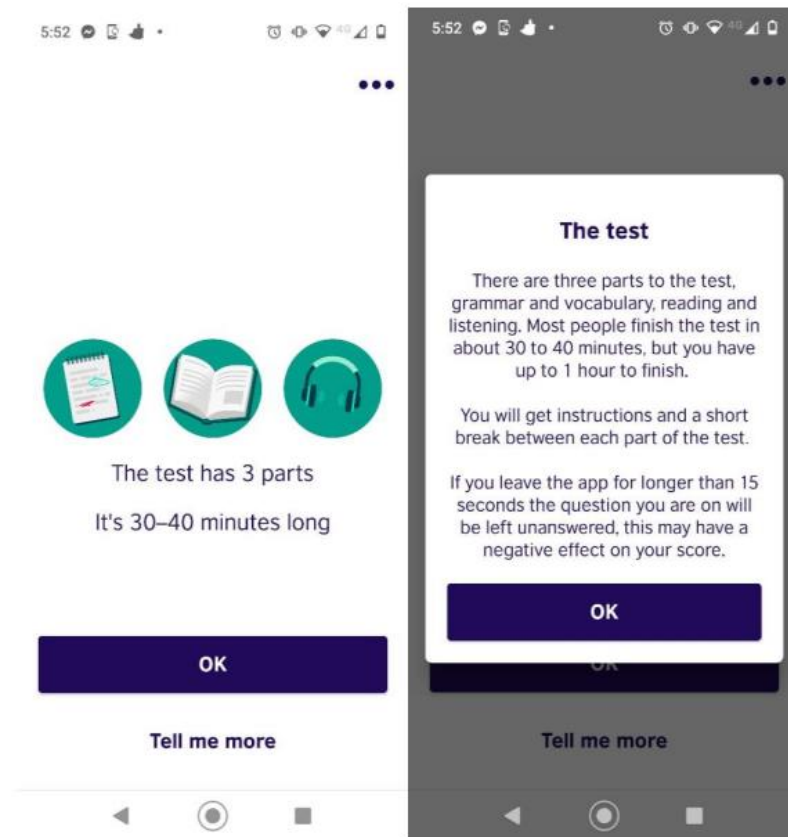

3. Tap the option that answers why you need to speak English. This is for marketing purposes. It won't affect anything else.

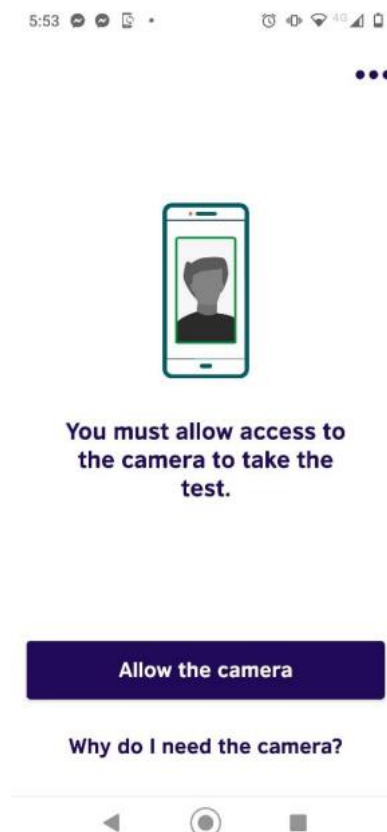

4. Skip the ads by tapping on "No thanks".

5. Read the characteristics of the exam, including structure, duration, etc. It should take you around 35 minutes to complete it.

6. Select "Allow the camera" so the application can supervise you. They must make sure you're the one completing the exam. You will also have to agree to photos being taken to verify your score and to take the test alone and with no help.

7. Complete the different sections of the exam on time. You will see a timer on the screen as well as a time bar.

a) There are no speaking sections but you will have to answer questions about vocabulary, grammar, reading and listening. Some of them are in multiple choice format and for some others you will have to fill in the blanks.

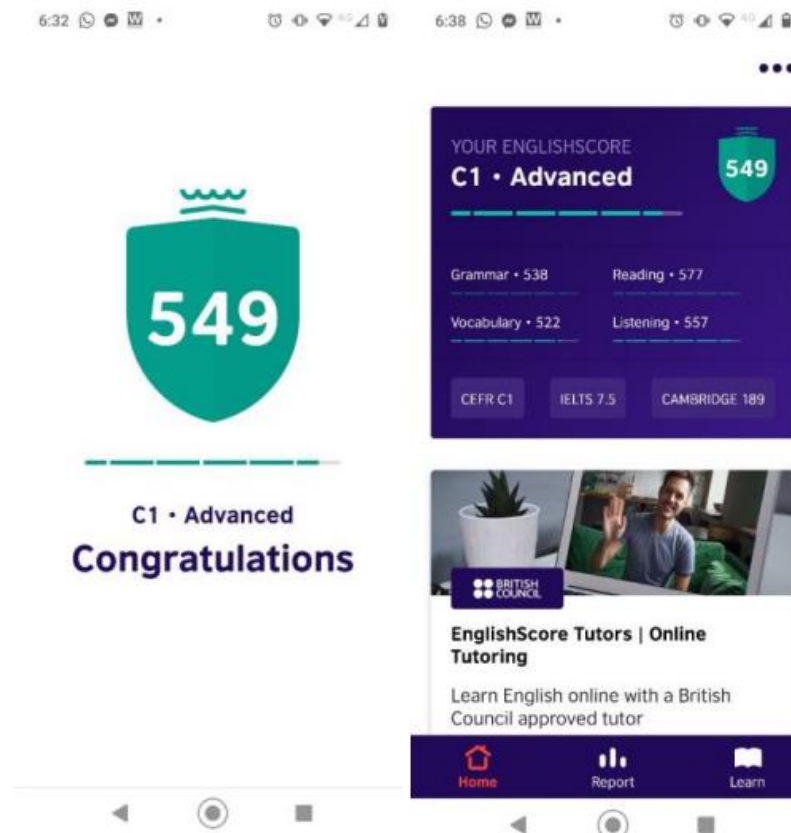

b) You can use your headphones if you want to. Make sure you have enough battery. Don't forget to change the settings of your phone so that the light of the screen doesn't go off while taking the exam.

c) Make sure you are sitting in a comfortable position.

d) I suggest that you complete the exam in an isolated room with as little background noise as possible.

e) The type of English used is British so you should try to listen very carefully. Audios can be played twice only.

8. You will see your score on the screen and you will be able to buy your certificate in PDF format or even have it printed and shipped to your house, but this is something optional.

9. If you decide to buy the certificate, prepare to take a selfie. They will send the certificate to the email address you provided.

10. Check the graphs generated for your final score and see which areas of opportunity you have in terms of communication skills in English. Send your results via email to [arianemarianam@hexaware.com](mailto:arianemarianam@hexaware.com) You can do it written, taking a picture of the results, or screenshot if possible.
